

Quality grades | Ceiba

II B

“Natural” face suitable for pigmented paints or lacquers. Cracks are allowed, provided they are well-filled patched; also allowed well-made repairs or patches and low-contrast discolorations

III BB

“Closed” face, putty-filled, suitable for uses where face is not visible. Sound, tight knots, cracks, overlapping and inclusions are allowed. Colorations, as long as they do not affect soundness, repairs and patches of all kinds
