

Quality grades | Okumè

I AB

Where face may be visible, ideal for all types of finish (plating, clear varnish, satin finish etc.) Only a few pin knots or sound, tight ones without cracks are allowed. Very small patches, or well-made repairs where color remains consistent with the rest of the surface are also allowed

II B

Face with color variations and a few pin knots or sound, tight ones are allowed. Suitable for coating with laminate, pigmented paints or lacquers. Small loose knots or cracks are allowed, provided they are well-filled patched

III BB

“Closed” face, putty-filled, suitable for uses where face is not visible. Sound, tight knots, loose knots, cracks and small holes are allowed, provided they are well-filled patched; Discolorations as long as they do not affect soundness
